

## HMW

The HMW questions helps you to think about different things and has you think about possible solutions that you could use in our project.

# HMW

**How Might We** get them to practice more then one a week?

**How Might We** help them to practice in their rooms?

**How Might We** provide access to practice in another way?

**How Might We** motivate them to practice more?

**How Might We** help them to practice wherever they are?

These are the HMW questions I thought of.
